## The rupiah strengthened; oil prices declined

In November, the Rupiah strengthened against the US dollar by 4% from IDR15,203 per USD at the end of October 2018 to IDR14,544 per USD on 23 November 2018. In the week beginning 16 November 2018, the rupiah strengthened by 0.47% from IDR14,612 per USD. In terms of volatility which is calculated by the weekly average of the highest and lowest levels, the volatility of the USD against the rupiah was lower last week. This was reflected in the decline in volatility from 96 points in the previous week to 59 points last week.

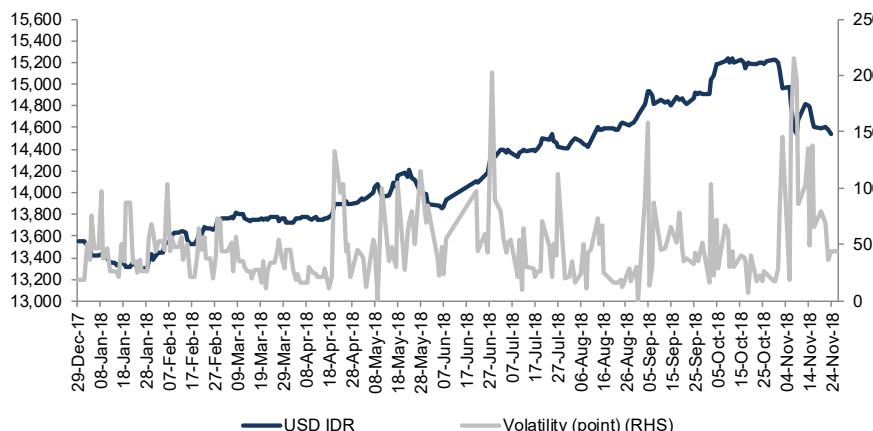

Meanwhile, world oil prices fell significantly during November 2018, down 21% for Brent and 23% for WTI. Last week alone, oil prices slumped by 12% for Brent to USD58.57 per barrel and by 11% for WTI to USD50.22 per barrel. The WTI price is at its lowest level since 9 October 2017 (USD 49.58 per barrel). These declines are due to high oil supply. Given these developments, the OPEC and Russia meeting scheduled to be held in December 2018 will be eagerly awaited.

## Penguatan Rupiah dan penurunan harga minyak

Selama bulan November, Rupiah terhadap US Dolar tercatat menguat sebesar 4% dari Rp15.203 per USD pada akhir Oktober 2018 menjadi Rp14.544 per USD pada 23 November 2018. Level tersebut menguat sebesar 0,47% dibandingkan dengan penutupan minggu sebelumnya tanggal 16 November 2018 di level Rp14.612 per USD. Dalam hal volatilitas yang diukur dari rata-rata selisih level tertinggi dan terendah mingguan, volatilitas USD terhadap Rupiah tercatat lebih stabil di minggu lalu. Hal ini terlihat dari penurunan volatilitas dari 96 poin di minggu sebelumnya menjadi 59 poin selama minggu lalu.

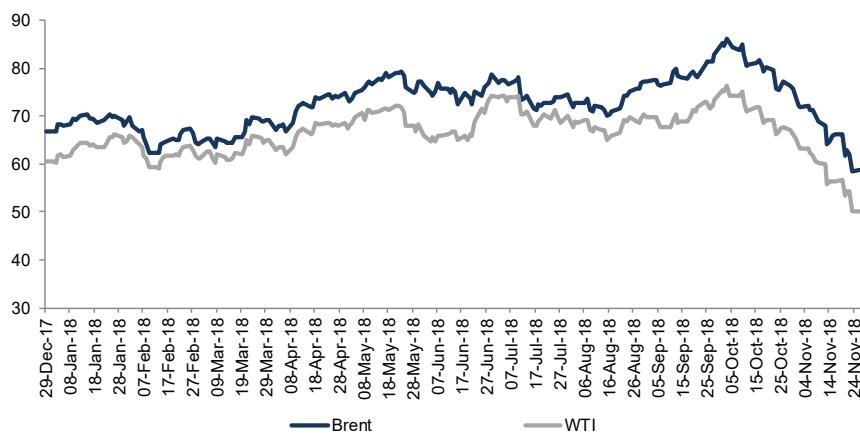

Sementara itu, harga minyak dunia tercatat menurun signifikan selama bulan November 2018 yaitu sebesar 21% untuk Brent dan 23% untuk WTI. Hal ini didorong oleh penurunan yang cukup dalam selama minggu lalu yaitu sebesar 12% untuk Brent menjadi USD58,57 per barrel dan 11% untuk WTI menjadi sebesar USD50,22 per barrel. Harga WTI tersebut merupakan yang terendah sejak 9 Oktober 2017 yang berada di level USD49,58 per barrel. Penurunan harga minyak ini disebabkan oleh tingginya supply minyak. Saat ini, semua sedang menunggu pertemuan OPEC dan Rusia yang dijadwalkan akan diadakan di awal Desember 2018.

**Continuing bullish movement**

The Indonesian bonds market remained bullish last week. The Danareksa Government Bonds Yield Index stood at 8.08% as of 23 November 2018, or down by 8bps over the week and down by 50bps compared to its level on 31 October 2018 of 8.58%. In line with the decline in yields, the 10-year Indonesian CDS was down by 5bps from 235bps on 31 October 2018 to 230bps on 23 November 2018. The 10-year US treasury yield declined by 10bps from 3.15% on 31 October 2018 to 3.05% on 23 November 2018. Apart from the strengthening of the rupiah, the decline in yields was also driven by capital inflows from foreign investors. During November, foreign ownership increased by IDR24.89 trillion from IDR864.32 trillion on 31 October 2018 to IDR889.21 trillion on 21 November 2018. In proportional terms, foreign ownership increased by 0.63%.

**Melanjutkan pergerakan bullish**

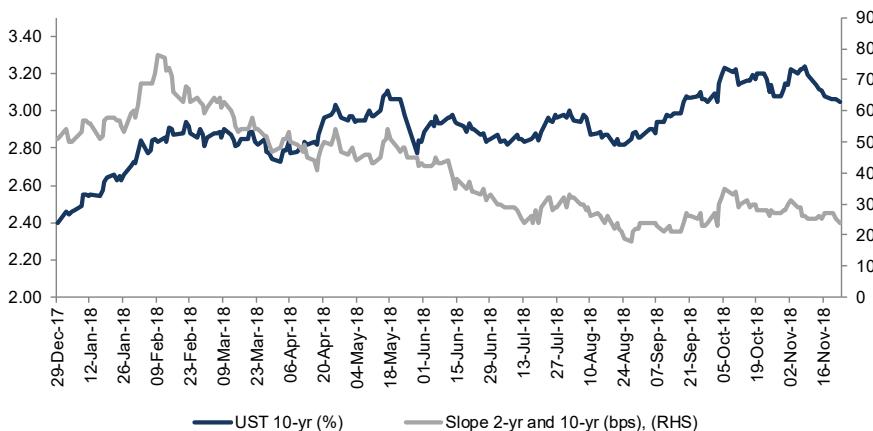

Di sisi lain, pasar obligasi Indonesia melanjutkan pergerakan *bullish* selama minggu lalu. Danareksa *Government Yield Index* mencatatkan *yield* obligasi Pemerintah berada di level 8,08% per 23 November 2018, atau menurun sebesar 8bps selama minggu lalu dan menurun sebesar 50bps dibandingkan dengan penutupan tanggal 31 Oktober 2018 sebesar 8,58%. Sejalan dengan penurunan *yield*, Indon CDS 10-tahun juga mengalami penurunan sebesar 5bps dari 235bps di 31 Oktober 2018 menjadi 230bps di 23 November 2018. Sedangkan US treasury 10-tahun mengalami sedikit penurunan sebesar 10bps dari 3,15% di 31 Oktober 2018 menjadi 3,05% di 23 November 2018. Selain karena penguatan Rupiah, penurunan *yield* juga didorong oleh adanya *capital inflow* dari investor asing. Selama bulan November, kepemilikan asing meningkat sebesar Rp24,89 triliun dari Rp864,32 triliun di 31 Oktober 2018 menjadi Rp889,21 triliun di 21 November 2018. Namun dalam hal proporsi kepemilikan asing, pada periode tersebut hanya meningkat sebesar 0,63%.

### This year's remaining government bond auctions have been cancelled

The government held the last SUN auction on 21 November 2018 for the SPN031900222, SPN12190801, FR0077, FR0078, FR065 and FR075 series. At the auction last week, the total incoming bids were recorded at IDR41.63 trillion. This amount was lower than at the previous SUN auction on 6 November 2018 in which the incoming bids reached IDR59.48 trillion. The total winning bids were IDR15 trillion or lower than the winning bids at the previous SUN auction. The largest number of incoming bids was for series FR0077 which amounted to IDR12.23 trillion followed by FR0078 (IDR9.82 trillion). The most winning bids were for the FR0077 series (IDR5.25 trillion) followed by FR0078 (IDR4.30 trillion). Details of the auction results can be found in Exhibit 7.

The Government were scheduled to hold four auctions by 18 December 2018: two SUN auctions and two SBSN auctions. However, based on a press release conducted by the DJPPR on 22 November 2018, the remaining SUN and SBSN auctions in 2018 have been cancelled. The cancellation of the planned issuance of SBN in the primary market was decided after considering the outlook for fulfilling the 2018 state budget financing target sourced from SBN issuances. As of 23 November 2018, the issuance of gross SBN had reached IDR768.22 trillion or 96% of the total target of IDR798.98 trillion.

Based on data from the Ministry of Finance as of 31 October 2018, state revenues reached IDR1,484 trillion or 78.3% of the 2018 state budget ceiling. This is 20% higher than the state revenues in the same period the previous year. Meanwhile, the budget deficit until October 2018 reached IDR236.99 trillion or around 1.60% percent of GDP or lower than the previous projection of 2.2%.

### Pembatalan sisa lelang obligasi Pemerintah

Pemerintah mengadakan lelang SUN terakhir pada tanggal 21 November 2018 untuk seri SPN031900222, SPN12190801, FR0077, FR0078, FR065, dan FR075. Pada lelang minggu lalu, total penawaran yang masuk tercatat sebesar Rp41,63 triliun. Jumlah ini lebih rendah dibanding lelang SUN sebelumnya pada tanggal 6 November 2018 yang memiliki penawaran masuk sebesar Rp59,48 triliun. Sementara itu, total penawaran yang dimenangkan adalah sebesar Rp15 triliun, atau lebih rendah dibanding penawaran yang dimenangkan pada lelang SUN sebelumnya. Jumlah penawaran masuk yang terbesar yaitu seri FR0077 yaitu sebesar Rp12,23 triliun diikuti oleh FR0078 sebesar Rp9,82 triliun, sedangkan penawaran yang dimenangkan terbesar adalah untuk seri FR0077 yaitu sebesar Rp5,25 triliun, diikuti oleh FR0078 yaitu sebesar Rp4,30 triliun. Rincian hasil lelang tersebut terdapat dalam Exhibit 7.

Pemerintah dijadwalkan akan mengadakan lelang sebanyak empat (4) kali lagi hingga tanggal 18 Desember 2018 dengan lelang SUN sebanyak dua (2) kali dan lelang SBSN sebanyak dua (2) kali. Namun, berdasarkan siaran pers yang dilakukan oleh DJPPR pada tanggal 22 November 2018, sisa lelang penerbitan SUN dan SBSN di tahun 2018 yang belum dilaksanakan telah dibatalkan. Pembatalan rencana penerbitan SBN di pasar perdana tersebut diputuskan setelah mempertimbangkan *outlook* pemenuhan target pembiayaan APBN tahun 2018 yang bersumber dari lelang penerbitan SBN. Per tanggal 23 November 2018, penerbitan gross SBN adalah sebesar Rp768,22 triliun atau sebesar 96% dari total target penerbitan gross SBN yaitu sebesar Rp798,98 triliun.

Berdasarkan data Kementerian Keuangan per tanggal 31 Oktober 2018, pendapatan negara mencapai Rp1.484 triliun atau 78,3% dari pagu APBN 2018. Hal ini berarti meningkat sebesar 20% dibandingkan periode yang sama tahun sebelumnya. Sementara itu, realisasi defisit APBN hingga Oktober 2018 mencapai Rp236,99 triliun atau sekitar 1,60% persen PDB atau lebih rendah dari proyeksi sebelumnya yaitu sebesar 2,2%.
