July Update: Back to Deficit

Forecast for 2019

Exports	USD 166.7 bn
Imports	USD 171.8 bn
Trade Balance	USD (5.04) bn

- Indonesia recorded brisker foreign trade following the end of Lebaran and helped by the increasing number of working days. In July 2019, Indonesia's exports and imports both rose on a monthly basis to USD 15.4 bn (+31.0% mom) and USD 15.5 bn (+35.0% mom), respectively, monthly highs in 2019. On an annual comparison, however, exports and imports were still down by 5.2% yoy and 15.2% yoy. As a result, the trade balance posted a deficit of USD 63.5 mn in July 2019, albeit smaller than the median consensus of a USD 420 mn deficit and Danareksa's estimate of a USD 482.5 mn deficit. The smaller-than-expected deficit stemmed from a lower oil and gas deficit (USD 0.14 bn) and a USD 0.08 bn surplus from non oil and gas trade. In the Jan-Jul period, Indonesia's trade deficit reached USD 1.9 bn, or still lower than in the previous year (USD 3.21 bn deficit).
- Surging oil and gas exports (+115.2% mom) and non oil and gas exports (+25.3% mom) pushed up July's exports value. The higher exports reflect rising trade volume (+21.5% mom, +3.9% yoy) and higher average prices (+7.8% mom, -8.7% yoy). By product type, the shipments of Indonesia's top non oil and gas export products rose - including exports of mineral fuel (HS 27), electrical appliances (HS 85), and vehicle and parts (HS 87). These three commodities are 25.6% of Jan-Jul's non oil and gas exports. By destination country, the value of Indonesia's non oil and gas exports to China, the U.S. and Japan rose by 25.9%, 47.1%, and 18.9% mom, respectively. In the Jan-Jul period, exports to these three countries contributed 35.8% of Indonesia's non oil and gas exports.
- The higher imports reflect an increase in the value of oil and gas imports (+2.0% mom to USD 1.7 bn) and much higher non oil and gas imports (+40.7% mom to USD 13.8 bn). Both monthly imports volume (+32.9% mom, -12.2% yoy) and average prices (+1.5% mom, -3.4% yoy) were higher. By product type, Indonesia's main non oil and gas imports, such as mechanical appliances (HS 84), electrical appliances (HS 85), iron and steel (HS 72) and plastics products (HS 39) rebounded. By country of origin, the imports of non oil and gas products from China, Japan and Thailand rose by 57.7% mom, 21.1% mom and 25.6% mom, respectively.
- Imports of raw materials, capital goods, and consumption goods rose by 29.0% mom, 60.7% mom, and 42.1% mom, respectively. In Jan-July 2019, raw materials accounted for 74.6 percent of the total imports, followed by capital goods (16.3%) and consumption goods (9.1%).

Semen Indonesia (Persero)(SMGR IJ)

Still weak if SBI is excluded

Semen Indonesia Group booked cement sales in Jul19 of 3.82 mn tons, +27.7%yoy on the back of consolidation with SBI. However, excluding SBI, domestic cement sales were down by 6.0%yoy, worse than the industry's decline of -2.22%yoy. Group sales in 7M19 reached 21.26mn tons, +20.5%yoy. The group had a majority 53% of the domestic cement market.

Semen Indonesia Group (SMIG) booked cement sales in Jul19 of 3.82mn tons. Sales grew by +27.7%yoy on the back of consolidation with SBI and soared +66.0%mom as demand normalized post the Lebaran Holidays in Jun19. Excluding SBI, cement sales reached 2.88mn tons (-3.7%yoy and +65.9%mom) on the back of soft domestic sales by SMGR (-6.0%yoy to 2.35mn tons). SMIG's share of the domestic market reached 52.5% in Jul19, higher than the previous year's 37.5% before consolidation.

Sales in 7M19 reached 21.26mn tons in total, +20.5%yoy. Excluding SBI, the cumulative sales reached 16.56mn tons, or -6.1%yoy, on the back of soft domestic cement sales and lower sales from TLCC (-22.7%yoy to 1.19mn tons). SMGR's domestic cement sales in 7M19 reached 13.49mn tons, or -5.8%yoy, worse than the domestic consumption growth. Hence, SMGR's market share declined from 39.3% in 7M18 to 37.8% in 7M19. However, including SBI, SMIG still had a majority 53% of the domestic cement market.

Domestic cement consumption in 7M19 reached 35.67mn tons, or -2.20%yoy, dragged down by soft demand in 2Q19. Based on the region, the strongest demand growth occurred in East Indonesia (+11.49%yoy), followed by Nusa Tenggara (+3.18%yoy), Sulawesi (+2.48%yoy), Kalimantan (+0.20%yoy). However, sales in Java and Sumatra were -2.63%yoy and -6.42%yoy. Java contributed 56% of the domestic demand, while Sumatra contributed 21%. On a monthly basis, cement consumption in Jul19 reached 6.28mn tons (-2.22%yoy, +68.0%mom).

We might cut our 2019 sales volume target. Based on our current target of 34.16mn tons, given 3.04%yoy growth and excluding the consolidation of SBI, SMGR needs to sell 17.6mn tons of cement in the remaining 5 months of 2019, implying growth of +13.5%yoy. Assuming FY19 growth of -1.0%yoy to 2.0%yoy, SMGR would have to book 4.9%yoy to 11.3%yoy growth in the coming months.

Maintain BUY. We maintain our BUY call on SMGR given its dominant position in the domestic cement market. However, we are reviewing our cement sales target given the weak 7M19 cement sales.

The debt to service ratio (DSR) has increased with the tier-1 DSR reaching 28.48% as of Jun19, driven by slow exports growth that reached 6.58% yoy in 1H19.
